

Innovation Lab – Student Job 40%-60%

Do you want to be part of our growing team that shapes the nature and business models of the Asset Management industry of the future?

Do you want to learn about cutting edge technology and how to successfully introduce it as real products in the financial industry all while studying?

Co-founded by Credit Suisse Asset Management, the now independent **i.AM Innovation Lab** offers the opportunity to work in an entrepreneurial start-up environment, in which you can incrementally build up a business from scratch. Our innovation project pipeline is full, and the rapid development of prototypes and MVPs is at the core of our work. Human Machine Interaction, Business Model Innovation and Digital Assets is where we focus our research and development and where we work on projects for large corporations and start-ups alike.

We look for you, a top motivated, driven and talented student that supports us in our various endeavours. We offer you a job where you can grow and advance quickly. We are open to offering you great responsibilities and a chance to have a real impact when you develop and are ready for it. Our small team of experts in various fields operates in a super flat hierarchy.

Your Role

- Organise and conduct user research activities
- Help with and independently conduct desk research on various topics
- Responsibility for the project management office
- Prepare presentations for various occasions and projects

Must haves

- Bachelor degree in either business administration, finance, design or a comparable education.
- Availability of at least one year
- Organisational talent and with the ability to collaborate efficiently in a team
- Visual sense to produce impactful presentations
- Fast and keen learner with the ability to work independently on assigned tasks
- Social team player

Nice to haves

- Entrepreneurial spirit, a ‘doer’ mentality
- Knowledge of the financial industry, particularly Asset Management
- A high degree of curiosity, bringing in own ideas

What you can expect

- A highly motivated and innovation-driven team with a super flat hierarchy
- Constant learning and growing environment with the chance to become a permanent part of the team
- Flexible working hours
